ABSTRACTED-PUB-NO: JP02150325A

BASIC-ABSTRACT:

A stamper for moulding an optical stamper substrate having an address pit corresp, to an address signal and guide grooves for tracking has an address pit-corresp. part of which a sectional shape is trapezoid with round corners (2). USE/ADVANTAGE - Optical discs, e.g. optical magnetic disc, DRAW disc, to record and reproduce information are produced. On an optical disc, pits are accurately provided without marks of recontact of a stamper, Cracks do not generate at pits, even when a film is formed by sputtering or vucuum-depositing, due to round corners.
